Phone: 001-673-357-2317x846

Artificial Intelligence Engineer

Education:

- High School Diploma

Skills:

Advanced NLP Techniques, AI Model Deployment on Kubernetes, Parallel Processing in AI, Hyperparameter Tuning with Grid Search, Scalable Algorithms for Cloud, Optimization of Deep Neural Networks, Graph Neural Networks, Deep Learning Model Optimization, Edge Computing for IoT, Explainable AI, Reinforcement Learning for Robotics, Transfer Learning, Cross-Validation Strategies, Computer Vision using PyTorch, GANs for Image Generation

Work Experience:

- AI Specialist at NeuraLink Technologies (2018-2021): Developed NLP models for chatbots and virtual assistants.

- Machine Learning Intern at Smart Solutions Inc. (2017-2018): Assisted in developing supervised and unsupervised learning models.
